INTRODUCTION

SSA Consultants (SSA) submitted a proposal in 2015 to the St. Tammany Parish Sheriff's Office (STPSO) to conduct a Compensation and Benefit Plan Study. SSA's proposal was accepted by STPSO and the two organizations entered into a professional services contract. SSA's primary contact for this project was Deputy Chief Danell Gerchow.

The St. Tammany Parish Sheriff's Office Compensation and Benefit Plan Study (the Study) included two parts. The first part evaluated the current salary and benefit structure through the following activities:

- Review each current job description for every job classification as provided by the department directors;
- Review current compensation and benefit package for each job description, including retirement benefit cost;
- Assess each job classification in relation to comparable classifications within the private and public sectors to determine the minimum compensation and benefit packages for each job classification; and
- Prepare a report with this information for the St. Tammany Parish Sheriff's Office.

The second part of the Study focused on providing assistance to STPSO in formulating a salary and benefit structure for the future:

- Identify potential compensation concerns and recommend possible alternative solutions;
- Develop externally competitive and internally equitable salary recommendations for each job classification included in the study. Provide an analysis with comparison to other law enforcement organizations and private entities; and
- Prepare report a with this information for the St. Tammany Parish Sheriff's Office.

Consulting activities began in October 2015 and concluded in December 2015. Delivery of this document constitutes the report of the Study. SSA extends its sincere appreciation to the St. Tammany Parish Sheriff's Office members who have generously contributed their knowledge and insights to this project.

Will Williams, PhD, MBA Partner, SSA Consultants Project Director

EVALUATION AND ASSESSMENT

The first part of the Study included the following general activities:

- Review each current job description for every job classification as provided by the department directors;
- Review current compensation and benefit package for each job description, including retirement benefit cost;
- Assess each job classification in relation to comparable classifications within the private and public sectors to determine the minimum compensation and benefit packages for each job classification; and
- Prepare a report with this information for the St. Tammany Parish Sheriff's Office (STPSO).

Methodology

The following generally describes SSA's methodology used to complete the first part of the Study.

Data Request

The first step in the Study was to gather information from STPSO to understand the current compensation and benefit plan and its structure. The data request included job descriptions, current pay plan and benefit information, organization charts and the table of organization, manuals or documents describing pay policies, and contact information for key leaders and other staff vital to the administration of this Study. The data request also requested names of other law enforcement organizations for comparison. A copy of the data request is provided in Appendix A of this report.

Interviews

A key requirement of any evaluation and assessment process is to understand the history of the organization and the current operational environment. SSA interviewed the STPSO staff, department directors, and administration staff. These interviews helped SSA understand the history of STPSO as an employer, the current compensation philosophy, areas of concern, and expectations of the Study.

Phase 1 Key Activity Milestones

- Deliver Data Request
- Schedule and Conduct Interviews in Kickoff Meeting
- Review Benefit Plans
- Review Job Descriptions
- Perform Job Match to Market Exercise

Benefits Review and Analysis

SSA reviewed the employee benefit packages offered by STPSO to its employees. The benefit package review included the typical range of benefits offered by employers, including annual leave, sick leave, health insurance, disability, and retirement. SSA compared the benefit packages offered by STPSO to other relevant public sector, law enforcement organizations.

Job Description Review and Comparative Match

SSA reviewed each job position using the job descriptions provided by STPSO and reviewed the strength chart. The job description review was complex as the strength chart did not always match the job description file name. Additionally, the job description file names did not consistently match the job description job name in the document. SSA worked with the STPSO team to address these discrepancies.

Each job description was then assessed and matched to comparable position descriptions within SSA's salary survey database, which contains job descriptions and salary information covering relevant and comparable jobs and salaries in the local and regional area. Where appropriate, SSA may have both private industry and government salary information for given jobs. SSA's salary survey database includes a market-based salary midpoint (the 50th percentile) for each job position in the database.

The STPSO compensation system utilizes salary ranges for its established labor grades. There are 18 labor grades and each grade is divided into 20 steps. Each salary step in a St. Tammany Parish Sheriff's Office salary range is a 2.5% increase over the step before. Therefore, for each labor grade there is a band of 25% above and 25% below the mid-point. A copy of the current St. Tammany Parish Sheriff's Office labor grade matrix is provided in Appendix B of this report.

Specific job descriptions only use part of this wide salary band. SSA examined jobs that had a salary band of +-5% around the median for that job, and others that had +-23%. The typical salary band for STPSO seemed to be about +-11%. These are narrow bands that vary quite a bit from job to job. Organizations typically have a specific set band for their jobs.

SSA calculated the market-based salary ranges for each job position using the market-based midpoints in its database. SSA also compared STPSO data to regional law enforcement agencies. The calculation created comparative salary ranges that extended 20% below the market midpoints and 20% above the market midpoints. Where employees receive hourly wages, the wage rate was multiplied by 2080 (the number of hours for a full time employee working a 40-hour week) to calculate a comparable annual salary figure.

SSA CONSULTANTS

Comparative Salary Range Analysis

SSA created the following chart (Figure 1) to compare STPSO salary ranges with the market-based salary ranges. The chart includes, from left to right, the following columns:

| Column Name | Column Description |
|--|---|
| Department | The St. Tammany Parish Sheriff's Office department in which the job position is located. |
| LG | St. Tammany Parish Sheriff's Office labor grade code assigned to the job position. |
| Position | The St. Tammany Parish Sheriff's Office job position title. |
| STPSO Job Description Range: Minimum and Maximum | The St. Tammany Parish Sheriff's Office labor grade minimum and maximum salaries of the identified job position. |
| Market-based Range: Minimum and Maximum | The market-based minimum and maximum salaries for a job description/position comparable to the identified St. Tammany Parish Sheriff's Office job position. |

The STPSO Comparative Salary Range Analysis chart is also color coded to highlight important comparative results.

| Color Code | Code Description |
|------------|---|
| Yellow | Identifies specific STPSO salary minimums that are below the comparative market-based minimum salary. |
| Orange | Identifies specific STPSO salary ranges where both the current minimum and maximum salaries in the range are below the comparative market-based minimum salary. |

Snapshot of Salary Ranges from Other Law Enforcement Agencies

A number of interviewees expressed an interest in a snapshot comparison of STPSO compensation with other area agencies. The following charts (**Figure 2 and Figure 3**) compare 11 selected agencies jobs to comparable jobs in STPSO. Some data was supplied by STPSO, some from SSA contacts, and some from published data. Some of the terms used for describing positions varied from agency to agency and a best effort was made to compare similar positions. The following charts demonstrate how individual points of comparison (individual parish salary ranges) can sometimes vary widely from market-based averages.

OBSERVATIONS & RECOMMENDATIONS

The second part of the Study focused on providing assistance to STPSO in formulating a salary and benefit structure for the future. This included:

- Identification of potential compensation concerns and recommend possible alternative solutions;
- Development of externally competitive and internally equitable salary recommendations for each job classification included in the study. Provide an analysis with comparison to other law enforcement organizations and private entities; and
- Preparation of report with this information for the St. Tammany Parish Sheriff's Office.

The comparative salary range analysis and the comparison with other law enforcement organizations and private entities is provided in the previous section of this report, **Evaluation and Assessment**, in Figures 1, 2, and 3.

Comparative Salary Range Analysis

- The comparative salary range analysis shows that many STPSO job position salary ranges fall within the market-based range, 49% (95 of 194). Of the positions that do not fall within the market-based range, many are only slightly below the minimum some by as little as \$12. STPSO has 77% (150 of 194) of salaries within the market ranges or within a few dollars for being in the market ranges. This indicates that, in general, the salary ranges provide fair compensation to employees.
- There are nine jobs in Accounting, Human Resources, and IT where the entire salary range for the STPSO position is below the minimum market level. These positions require a closer look to ensure the job descriptions truly reflect the responsibilities, duties, and accountability of those positions.
- Overall, some minor adjustments to the STPSO minimums will bring the majority of the job positions in line with market data.

St. Tammany Parish Sheriff's Office Salary Minimum Below Market-Based Minimum

The yellow color code on the STPSO Comparative Salary Range Analysis (**Figure 1**) identifies 90 job positions where the specific STPSO salary minimums are below the comparative market-based minimum salary. This does not mean that any individual employee is necessarily paid below the minimum; rather, this analysis is based strictly on salary range comparisons. Because most public organizations hire in at Step 1, STPSO may find it difficult to attract qualified employees unless the market range minimums are adjusted.

Recommendation 1:

Move 90 identified job positions into the market-based range

St. Tammany Parish Sheriff's Office should review the current salaries for the identified 90 positions that fall below the comparative market-based minimum salary and adjust the salaries for these job positions into the market-based range.

St. Tammany Parish Sheriff's Office Salary Range below Market-Based Minimum

The orange color code on the STPSO Comparative Salary Range Analysis (**Figure 2**) chart identifies nine positions where the entire STPSO salary range (both the current minimum and maximum salaries) is below the comparative market-based minimum salary. These should be evaluated to confirm the job descriptions are accurate and reflect the current job responsibilities and authority.

Recommendation 2:

Establish fair salary ranges with market-based minimums and maximums for all job positions.

St. Tammany Parish Sheriff's Office should establish fair salary ranges including minimums and maximums for all positions utilizing market-based salary data. These should be periodically reviewed to ensure that ranges remain competitive.

Internal Compression at Lower Salary Levels

Salary compression is a problematic circumstance created when only a small difference in salary exists between certain positions, despite differences in required skills and/or experience. This compression results in pay inequities and may result in higher turnover in those positions or job families.

Recommendation 3:

Consider consolidating similar job positions under one job title and create lines of progression

St. Tammany Parish Sheriff's Office should evaluate similar positions and consolidate those positions under one job title based upon required skills and scope of responsibilities. Additionally, promotional opportunity can be created through the establishment of lines of progression.

Structural Pay Plan Issues

All organizational compensation systems include features, formulas, and policies that collectively provide structure for managing and maintaining the system across time. SSA offers the following observations regarding important elements of STPSO compensation system.

Merit Increases

Merit increases are given at the recommendation of the supervisor and upon approval of the Sheriff.

Annual Cost-of-Living Adjustments

Annual Cost-of-Living Adjustments (COLAs) refers to compensation adjustments intended to offset annual cost-of-living increases. COLA awards are commonly tied to widely accepted indices such as the national Consumer Price Index (CPI). The beneficial impact of this type of compensation practice is obviously greater for the upper half of the established labor grades.

Blanket annual COLAs are not common in the private sector and are becoming less common in the public sector. COLAs are sometimes utilized in public organizations where a significant number of employees are "topped out" or at the top of their market range to help those employees keep pace with inflation since they will not receive a salary increase.

Number of Job Positions

The number of discrete job positions within the STPSO system is not extraordinarily high.

On-Call Policy

A STPSO employee who is scheduled for On-Call Duty is eligible to receive three hours of pay at straight time for each day of On-Call Duty. This pay is in addition to all actual hours worked and is subject to approval by a supervisor.

Compensatory Time

St. Tammany Parish Sheriff's Office does not offer Compensatory Time except in circumstances determined to be a "dire need," such as during an ongoing emergency, and must be for a pre-determined period. Should a qualifying event occur, Compensatory Time shall be paid at a designated rate and only after an employee exceeds 80 hours per pay period.

Benefit Packages

SSA reviewed STPSO benefit packages including annual leave, sick leave, health insurance, retirement, and other benefits.

Annual Leave

The following chart (Figure 4) depicts St. Tammany Parish Sheriff's Office's current annual leave system which allows for the accumulation of annual leave days earned.

Figure 4. St. Tammany Parish Sheriff's Office Annual Leave System

| Years of Service | Total Annual Hours Earned Per Year |
|---------------------|------------------------------------|
| 0.5 years | 24 hours |
| 1 through 4 years | 128 hours |
| 5 through 6 years | 144 hours |
| 7 through 9 years | 160 hours |
| 10 through 14 years | 168 hours |
| 15+ years | 208 hours |

Under existing policy, "annual leave must be used within one year of accrual, with the exception of 40 hours which will be automatically rolled over for the first 30 days following the employee's anniversary date." Exceptions may be requested through the Director of Human Resources. St. Tammany Parish Sheriff's Office has a Voluntary Leave Transfer Program which allows employees to anonymously donate unused Annual Leave to an employee who has an approved personal, family, or medical emergency and who has exhausted all available paid leave.

The following table (Figure 5) compares the STPSO annual leave earned amounts with those of other regional peers.

Figure 5. Annual Leave Comparison – St. Tammany Parish Sheriff's Office to Regional Peers

| | Annual Leave: Total Annual Days Earned Per Year | | | | | | | | | | | | |
|---------------------|--|---------------------|-----------------------|---------------------|--------------------------------|---------------------|---|---------------------|--|---------------------|------------------------------|--|--|
| Years of Service | St. Tammany Parish Sheriff's Office | Years of Service | St. Tammany Parish | Years of Service | Baton Rouge Police Dept. | Years of Service | East Baton Rouge Parish Sheriff's Office | Years of Service | Jefferson Parish Sheriff's Office | Years of Service | Slidell Police Department | | |
| 0.5 to 1 | 3 | Less than 2 | 10 | Less than 3 | 12 | Less than 5 | 26 | Less than 4 | 12 | Less than 1 | 12 | | |
| 1 to 4 | 16 | 2 to 6 | 13 | 3 to 4 | 15 | 6 to 10 | 29 | 5 to 9 | 14 | 1 to 4 | 15 | | |
| 5 to 6 | 18 | 7 to 12 | 17 | 5 to 9 | 18 | 11 to 15 | 32 | 10 to 14 | 16 | 5 to 9 | 18 | | |
| 7 to 9 | 20 | 13 to 18 | 21 | 10 to 14 | 21 | 16 or more | 36 | 15 to 19 | 18 | 10 to 14 | 21 | | |
| 10 to 14 | 21 | 19 or more | 23 | 15 or more | 24 | | | 20 or more | 20 | 15 or more | 24 | | |
| 15 or more | 26 | | | | | | | | | | | | |

Due to the differences in leave accumulation in each jurisdiction, annual leave policies cannot be compared solely on a year by year basis. They, instead, must be compared over ranges. Overall, STPSO's annual leave policy seems to be in the average range of leave policies when compared with ranges of other jurisdictions. The exception to this is East Baton Rouge Parish Sheriff's Office which does not offer sick leave and, instead, increases annual leave to offset this difference.

Sick Leave

The following table (Figure 6) compares the STPSO EIB amounts with sick leave offered by other regional peers.

Figure 6. Sick Leave Comparison – St. Tammany Parish Sheriff's Office to Regional Peers

| | | Sick | Leave | | | | | | | | |
|--|--------------------|-----------------------------------|--|---|---|--|--|--|--|--|--|
| Total Annual Days Earned Per Year for All Years of Service | | | | | | | | | | | |
| St. Tammany Sheriff Office EIB | St. Tammany Parish | Baton Rouge Police Department* | East Baton Rouge Parish Sheriff's Office* | Jefferson Parish Sheriff's Office [†] | Slidell Police Department [^] | | | | | | |
| 15 | 9 | 12 | N/A | 10 | 12 | | | | | | |

Figure 6 Notes:

^{*} East Baton Rouge Parish Sheriff's Office: If hired after April 4, 2015, the accrual rate is 96 hours per year with a 480-hour maximum. If hired before April 4, 2015, the number of days per year is the same as annual leave.

⁺ Jefferson Parish Sheriff's Office: Sick leave is accrued at 10 days per year if employed less than five years, at 12.5 days per year if employed five years or more and less than 10 years, and at 15 days per year if employed for 10 or more years.

[^] Slidell Police Department: If hired on or after July 1, 1999, the accrual rate is 12 days per year with an unlimited maximum. If hired before July 1, 1999, the number of days per year is the same as annual leave.

Bereavement Leave

All full-time employees receive paid leave up to 24 hours in the case of the death of an immediate family member. Employees who take Bereavement Leave will be required to provide documentation of death to their supervisor.

Time taken for the death of a child or spouse is limited to 160 hours in addition to Bereavement Leave. Time taken for the death of a parent is limited to 40 hours in addition to Bereavement Leave. Time taken for the care of a child or spouse who is incapacitated to due to catastrophic illness or injury is limited to 80 hours.

Extended Illness Bank (EIB)

St. Tammany Parish Sheriff's Office offers an Extended Illness Bank (EIB) that is available for all full-time employees who are deemed to be disabled by a serious health condition or accidental injury, have experienced the death of a child or spouse, have experienced the death of parents, or for the care of a child or spouse who is incapacitated due to a catastrophic illness or injury. Employees must provide proof of eligibility in order to use the time in the EIB.

Extended Illness Bank leave is accrued at the rate of 4.62 hours per pay period or approximately 120 hours per year. Extended Illness Bank leave may be accumulated up to 480 hours, after which no more time is accrued until used. Extended Illness Bank time is not a cash exchangeable benefit and cannot be exchanged for cash or any other benefit.

Holidays

The St. Tammany Parish Sheriff's Office holiday policy allows employees to observe 12 paid holidays per year.

- 1. New Year's Day
- 2. Dr. Martin Luther King Day
- 3. Mardi Gras Day
- 4. Good Friday (Administrative and Supervisory Staff only)
- 5. Easter Sunday (Law Enforcement Staff only)
- 6. Memorial Day

- 7. Independence Day
- 8. Labor Day
- 9. Thanksgiving Day
- 10. Day after Thanksgiving
- 11. Christmas Eve
- 12. Christmas Day

Health Insurance

The STPSO health insurance benefit is a traditional Preferred Provider Organization (PPO) plan. A PPO plan allows for freedom of choice by allowing its participants to choose either in-network or out-of-network providers. However, participants may pay higher out-of-pocket costs if they choose an out-of-network provider.

The following table (Figure 7) compares STPSO monthly employee contributions, annual deductible, co-insurance, and the annual out-of-pocket maximum to those of regional peers.

Figure 7. Health Insurance Comparison – St. Tammany Parish Sheriff's Office to Regional Peers

Figure 8 Notes:

In addition, St. Tammany Parish Sheriff's Office Prescription Drug Benefits program requires a \$150.00 deductible on brand name drugs.

Slidell requires a \$50 deductible on prescriptions not including generics.

Retirement

St. Tammany Parish Sheriff's Office participates in the Louisiana Sheriff's Pension and Relief Fund. All eligible employees (deputized and non-deputized) are required to participate in the pension fund. The pension fund's normal retirement benefits allowance is equal to three percent of the member's final average compensation (or 3.3333% of the member's final average compensation if hired prior to January 1, 2012) multiplied by his/her years of creditable service. Final average compensation shall be defined as the average of the highest consecutive 36 months' salary for members hired prior to June 30, 2006. For members hired July 1, 2006 and later, final average compensation shall be defined as the average of the highest consecutive 60 months' salary.

Retirement benefits accrue from both employee and employer contributions. Employee contributions to the retirement system are mandatory and are deducted from the employee's salary each payroll period. The employee contribution is 10.25% and employer contribution is currently 14.5%.

Upon termination of employment without retiring, the accumulated contributions of the employee are refunded upon request. Employer contributions, however, are not refunded under any circumstances.

Other Notable Employee Benefits

St. Tammany Parish Sheriff's Office offers additional employee benefits including: dental insurance, basic life insurance, short-term disability insurance, and long-term disability insurance. The employee premiums for these insurance programs are 100% paid for by STPSO.

One benefit of particular note is the Tuition Assistance Program offered by STPSO. This program reimburses employees up to \$1,000 per semester while working towards a college degree. Compensation is by reimbursement only and is subject to approval and other stipulations. Upon attaining an acceptable degree an employee is compensated at the following rates: \$500 per year for an Associate's Degree, \$1,000 per year for a Bachelor's Degree, and \$2,000 per year for a Master's Degree.

In summary, STPSO provides good benefits to its employees and is fortunate to have the financial resources to continue offering these as part of the employee's total compensation package.

Compensation Philosophy Considerations

In the geographic region that includes St. Tammany Parish, there is significant and growing competition for people with talent and skill. Additionally, the entire Gulf Coast region is experiencing an increasing demand for skilled and experienced employees. In this environment, STPSO will be increasingly challenged to hire and retain high-quality talent.

Additionally, demographic surveys indicate younger workers today are less attracted to the traditional compensation and benefit plans that require entry at relatively low pay and utilize incremental step increases based upon seniority. Demographic surveys also show these younger workers expect to change employers (and sometimes careers) numerous times during their working lives. This expectation diminishes the more traditional value that employees have placed on expensive benefit packages that especially reward employment longevity.

Attracting and retaining talented employees will increasingly require compensation and benefit systems that are more market-based than the traditional public sector model. Market-based compensation and benefit models include greater flexibility to price to the market for skills and experience, reward performance, and offer benefits attractive to today's (and tomorrow's) workforce.

Recommendation 4:

Continue to enhance the human resources function

St. Tammany Parish Sheriff's Office should continue to enhance its Human Resources function by adding the resources required to actively monitor market changes in compensation and benefits and improve the department's capacity to meet its human resource needs.

Recommendation 5:

Modify current compensation model to include more market-based features

St. Tammany Parish Sheriff's Office should investigate opportunities to modify its current compensation model to include elements of a more market-based compensation model. Elements of market-based compensation models currently being piloted by public sector employers include: rewards and recognition programs, pay for performance systems, and more flexible pay grade systems such as broad banding. These tend to be more attractive to younger people entering the workforce today.

Recommendation 6:

Conduct market-based compensation review every three years

St. Tammany Parish Sheriff's Office should conduct a market-based compensation review every three years to ensure compensation and benefits retain internal equity and external competitiveness.
